## Pharmacy Day at the Capitol, 2014

The APhA-ASP and AzPA chapters from University of Arizona and Midwestern University Colleges of Pharmacy sponsored the 2014 Pharmacy Day at the Capitol on February 12th, 2014. Pharmacy Day at the Capitol serves as a short information session for state legislatures and staff to learn about the role pharmacists play in healthcare.

This year, students emphasized the advantages of obtaining provider status for pharmacists by demonstrating their clinical skills through a variety of healthcare screenings including: diabetes, hypertension, asthma, and more. The poison Control Center informed legislators about safe medication uses and the consequences of exposure to toxins. The medication Management Center also provided information about the importance of performing comprehensive medication reviews to monitor the safety and efficacy of medication therapy and improve medication compliance and adherence.

APhA-ASP and AzPA would like to thank all the students and preceptors who participated in Pharmacy Day at the Capitol 2014. The event had a wonderful turnout and the students represented our College of Pharmacy with passion, intelligence, and professionalism.

## A Look Ahead: Bachelor/ Bachelorette Auction

It's the season of love! APhA-ASP will be holding its annual Bachelor/Bachelorette Auction on March 25th. Nominees from each class will be presented on stage and then auctioned off to the student body. Half the proceeds will be donated to Tu Nidito, a local charity supporting families whose lives have been impacted by serious medical conditions or death.

## A Look Ahead: APhA Annual Meeting & Exposition

This year's theme for the APhA Annual Meeting and Exposition is The Power and Promise of Pharmacy. Join your fellow colleagues in the opportunity to exchange ideas and recharge your bond with profession's promise - all while discovering the latest innovations and resources for future growth. Use the connections you make and the knowledge you gain as a positive force in your career and for the health of your patients.
